2nd IDKD Intensive Course in Hong Kong Excellence in Teaching

Diseases of the Abdomen and Pelvis

June 16 – 19, 2012
Hong Kong

In collaboration with the University of Hong Kong and
the Hong Kong College of Radiologists

An Interactive Course in Diagnostic Imaging
Preliminary Program

IDKD offers interactive, organ-based teaching workshops with annually changing topics.

Concept

IDKD – International Diagnostic Course Davos – is in its 44th year and has witnessed a great success and constant growth to over 1100 participants. The overwhelming success of the 1st IDKD course in Hong Kong with more than 260 participants from 30 nations has encouraged us to run a 2nd IDKD Intensive Course in Hong Kong, which will feature 14 workshops and several highlight lectures, spread over 3½ days (Saturday–Tuesday) on imaging of important diseases of the abdomen and pelvis. Lunch seminars organized by various companies will also be held.

During workshops, participants study and discuss the case material. Teachers then guide the participants through the cases, explain the differential diagnosis, present additional material and ask questions. Teachers can easily be approached during breaks to individually discuss unsolved problems. Participants rotate in groups of approximately 50 students through all the workshops. They can bring their own laptop (PC or Mac) to the workshops for case viewing and will get pdf files of the cases on a USB stick. Moreover, the teachers will present their cases in a video loop on the classroom VCR projector.

In addition to the teaching program “hot topics” in radiology, new developments and overviews including interventional techniques will be discussed in highlight lectures.

Organisation

Directors

Juerg Hodler, Zurich
Gustav K. von Schulthess, Zurich
Christoph L. Zollikofer, Kilchberg (Zurich)

Local Board

Lilian Leong, Chair of Local Board,
Founding President and Immediate Past-
President Hong Kong College of Radiologists

Scientific Program

Workshops

- 01. Focal Liver Disease**
Richard Baron, Chicago (US)
- 02. Diffuse Liver Disease**
Richard Baron, Chicago (US)
- 03. Renal Tumors**
Julia Fielding, Chapel Hill (US)
- 04. GU Infections and Obstruction**
Julia Fielding, Chapel Hill (US)
- 05. Male Genital Disease**
Bernd Hamm, Berlin (GE)
- 06. Female Genital Disease**
Bernd Hamm, Berlin (GE)
- 07. Emergency of the Abdomen**
Jay Heiken, St. Louis (US)
- 08. Vascular Diseases of the Abdomen**
Jay Heiken, St. Louis (US)
- 09. Diseases of the Biliary Tract**
Thomas Helmberger, Munich (GE)
- 10. Pancreatic Disease**
Thomas Helmberger, Munich (GE)
- 11. CT Colonography**
Philippe Lefere, Roeselare (BE)
- 12. Upper and lower GI Tract**
Philippe Lefere, Roeselare (BE)
- 13. Abdominal Trauma**
William Mayo-Smith, Providence (US)
- 14. Adrenal Disease**
William Mayo-Smith, Providence (US)

Lectures

- 01. Hilar & Extrahepatic Cholangiocarcinoma
classifications and imaging correlations**
Byung Ihn Choi, Seoul (ROK)
- 02. New Developments in Interventions
of the Abdomen and Pelvis**
Christoph L. Zollikofer, Kilchberg (CH)
- 03. NN**
- 04. NN**

Syllabus

The IDKD Syllabus produced for the Davos course is included in the Registration fee. It gives an overview of current imaging of Abdomen and Pelvis and includes Abstracts of all workshops.

IDKD Online Cases

Participants will receive a login and password allowing online access to more than 80 well-documented teaching cases stored in the IDKD online database.

CME Credits

European CME credits have been applied for and will be announced on the web at www.idkd.org. We expect to obtain approximately 21 CME/CPD credit points from UEMS, from the Australian and New Zealand College of Radiologists and from the Hong Kong College of Radiologists.

Exhibition

An exhibition of selected imaging industries will present relevant technical information and expert advice. Meet the representatives of leading companies and discuss recent advances of imaging technology.
