

# INTERNATIONAL DAY OF RADIOLOGY

NOVEMBER 8, 2021

*Let's celebrate together!*

[WWW.IDOR2021.COM](http://WWW.IDOR2021.COM)

Osmega novembra bomo, kot vsako leto, praznovali **Mednarodni dan radiologije in radiološke tehnologije (IDoR2021)**. Na ta dan želimo poudariti pomen radiologije, izpostaviti pomembno vlogo radiologov in radioloških inženirjev in drugih sodelavcev radiologije v zdravstvenem sistemu pri skrbi za varno obravnavo bolnikov in seznaniti širšo javnost z našo dejavnostjo.

Letošnji dan bo posvečen intervencijski radiologiji in njeni ključni vlogi pri zdravljenju bolnikov. Svet se še vedno sooča z izzivi epidemije COVID-19, zato se moramo zavedati pomena slikovne diagnostike ne le v nepredvidljivih okoliščinah pandemije, temveč tudi na vsakodnevni ravni oskrbe pacientov. Interventna radiologija je edinstvena in hitro rastoča subspecialnost, ki dnevno pomaga številnim bolnikom in varuje njihovo zdravje.

Moto za l. 2021 je „Intervencijska radiologija - aktivna oskrba paciente“. Vabimo vas, da proslavite pomembno vlogo, ki jo ima interventna radiologija pri zdravljenju bolnikov. Strokovnjake s področja radiologije pozivamo, da se za trenutek ustavite, se ozrete na plod svojega trtega dela in slavite doprinos radiologije k aktivni oskrbi bolnikov.

Vabimo vas, da pošljete fotografije Vas in Vaših kolegov, ki praznujejo IDoR 2021 na delovnem mestu na [IDoR2021@myesr.org](mailto:IDoR2021@myesr.org) (skupaj s kratkim opisom) ali pa jih objavite na svojih družbenih omrežjih s hashtagom #IDoR2021 in tako prispevate k prepoznavnosti naše stroke.

Fotografije, tviti in ostale objave bodo objavljeni na kanalih ESR.

*Let's celebrate together!*

## INTERNATIONAL DAY OF RADIOLOGY

NOVEMBER 8, 2021

*Let's celebrate together!*

As every year, the **International Day of Radiology (IDoR 2021)** will once again be celebrated on November 8 with the aim of building greater awareness of the value that radiology contributes to safe patient care and improving public understanding of the vital role radiologists and radiographers play in the healthcare continuum.

In 2021, IDoR will be dedicated to Interventional Radiology and its essential role in treating patients. As the world continues to face the challenges posed by COVID-19, it is extremely important to acknowledge the key role that medical imaging has in medicine, not only during unforeseen circumstances such as the pandemic, but also on a daily basis in all areas of patient care. Interventional radiology is a unique and growing subspecialty that helps and protects patients each and every day.

For IDOR 2021, we have chosen the motto 'Interventional Radiology - Active care for the patient'. With this phrase, we invite everyone to celebrate the essential role that interventional radiology plays in treating patients. To help support these celebrations, we ask imaging professionals across the world to pause for a moment, look back at their hard work and celebrate the contributions of radiology in the active care of patients.

With this year's motto, we also cordially invite individuals and organisations (national radiological societies, radiological subspecialty societies, radiographer societies & allied sciences societies, imaging departments etc.) throughout the world to share impressions of their day as they celebrate IDOR 2021.

We invite you to send us photos of you and your colleagues celebrating IDoR 2021 at your workplace. To share your photos either send them to us at [IDoR2021@myesr.org](mailto:IDoR2021@myesr.org) (together with a brief description) or post them on your social media accounts with the hashtag #IDoR2021.

We encourage all radiologists and radiographers to amplify the visibility of medical imaging on November 8, by being particularly active on social media. Our favorite photos, tweets and posts from the day will be shared on our ESR channels.

National radiological societies, radiological subspecialty societies, radiographers' societies & allied sciences societies throughout the world will be invited to participate and send us their impressions of the day.

Best regards

Prof. Michael Fuchsäger  
Chairman of the ESR Board of Directors

Prof. Nikoleta Travkova  
Chair of the ESR Communication and External Affairs Committee

#IDoR2021

## **Mednarodni dan radiologije in radiološke tehnologije 2021 – Intervencijska radiologija**

**Program srečanja:**

**16:00 - Pozdravni govor in otvoritev – Vladka Salapura in Nejc Mekiš**

**16:15 - Pogled radiologa na izzive pri obravnavi bolnikov v intervencijski radiologiji v UKC Ljubljana – Dimitrij Kuhelj**

**16:25 - Pogled radiologa na izzive pri obravnavi bolnikov v intervencijski radiologiji v UKC Maribor – Silva Breznik**

**16:40 - Pogled radiologa na izzive pri obravnavi bolnikov v intervencijski radiologiji v splošnih bolnišnicah – Anita Dobrovolec**

**16:50 - Pogled radiološkega inženirja na izzive pri obravnavi bolnikov v intervencijski radiologiji – Almir Halilović**

**17:00 - Pogled diplomiranega zdravstvenika na izzive pri obravnavi bolnikov v intervencijski radiologiji – Kristijan Lorenčič**

Srečanje bo potekalo v veliki predavalnici UKC Ljubljana.

Veseli bomo vaše udeležbe.

Prosimo, da se prijavite na [POVEZAVI](#) ali poskenirate spodnjo QR kodo

**INTERNATIONAL  
DAY OF  
RADIOLOGY**

**NOVEMBER 8, 2021**

Število prijav je omejeno.

*Let's celebrate together!*

Prosimo, da imajo vsi udeleženci pri sebi dokazilo o veljavnem PCT pogoju.
