

PRELIMINARY PROGRAM

WEDNESDAY, 30. 1. 2019

- 8:30 - 9:15 Successful Imaging in an Octopuses World (F. Dhaenens - BE)
- 9:15 - 10:00 From Image to Clinical Thinking (R.Rienmueller - AT)
- 10:00 - 10:45 Hemodynamics and relativity of numbers (M. Penko - SI)
- 10:45 - 11:15 Coffee Break
- 11:15 - 12:00 Echocardiography - what it can do and when it is not enough (N. Černič Šuligoj - SI)
- 12:00 - 13:00 Cases
- 13:00 - 14:00 Lunch
- 14:00 - 14:45 How to read a chest x-ray (R. Rienmueller - AT)
- 14:45 - 15:30 Contrast Agents in Cardiac Imaging (G. Somosi - HU)
- 15:30 - 16:15 Use of drugs in Cardiac Imaging (J. Froehlich - CH)
- 16:15 - 16:45 Coffee Break
- 16:45 - 17:30 MR and CT in Pericardial Disease (R. Rienmueller - AT)
- 17:30 - 18:30 Case readings (participants)
- 19:00 Dinner

PRELIMINARY PROGRAM

THURSDAY, 31. 1. 2019

- 8:30 - 9:15 CT of Coronary Vessels - What should you remember (R. Rienmueller - AT)
- 9:15 - 10:00 Role of CT in suspected acute coronary artery disease: where are we
(E. Mousseaux - FR)
- 10:00 - 10:45 Cybernetics of Myocardial Perfusion (R. Rienmueller - AT)
- 10:45 - 11:15 Coffee Break
- 11:15 - 12:00 The future of Cardiac CT: Plaque and functional 4D-flow and other imaging tools
(A. Persson - SE)
- 12:00 - 12:30 Artificial intelligence in radiology - hype or trend? (M. Deutschmann - DE)
- 12:30 - 13:00 Cases
- 13:00 - 14:00 Lunch
- 14:00 - 14:45 Myocardial Ischemia – a Variety of Clinical Scenarios (R. Rienmueller - AT)
- 14:45 - 15:30 Myocardial Viability and MRI (M. Pirnat - SI)
- 15:30 - 16:15 CT and MR evaluation of Valvular Disease (M.H. Paar - HR)
- 16:15 - 16:45 Coffee Break
- 16:45 - 17:30 Approach to MRI reading - Cardiomyopathies (M. Pirnat - SI)
- 17:30 - 18:45 Case readings (participants)
- 19:00 Dinner

PRELIMINARY PROGRAM

FRIDAY, 1. 2. 2019

- 8:30 - 9:15 Myocardial Ischemia – a Variety of Clinical Scenarios (R. Rienmueller -AT)
- 9:15 - 10:00 CMR in Ischemic heart disease (R. Manka - CH)
- 10:00 - 10:45 CMR in Heart Failure (R.Manka - CH)
- 10:45 - 11:15 Coffee Break
- 11:15 - 12:00 Connective tissue disorders in the myocardium (I. Carbone - IT)
- 12:00 - 13:00 Cases
- 13:00 - 14:00 Lunch
- 14:00 - 14:45 Diabesity Imaging (H.Lamb - NL)
- 14:45 - 15:30 ARVD and LV-non compaction cardiomyopathy (R. Manka - CH)
- 15:30 - 16:15 Congenital Heart Disease - Options and Approach (P.Berden - SI)
- 16:15 - 16:45 Coffee Break
- 16:45 - 17:30 Nuclear Medicine in Coronary disease (M. Reese - GB)
- 17:30 - 18:45 Case readings (participants)
- 19:00 Dinner

PRELIMINARY PROGRAM

SATURDAY, 2. 2. 2019

- 8:30 - 9:15 CT FFR (M. Beer - DE)
- 9:15 – 10:00 Stress perfusion (R.Manka - CH)
- 10:00 - 13:00 UKC Ljubljana – Live CT and MR studies/Lecture Philips/Lecture Ulrich
- A.Sirnik (SI) / I.Lopatic (SI)- MR/CT studies
- Petr Ourednicek (Philips): Spectral CT in CV - where we stand now?
- TBA(Ulrich)
- 13:00 - 14:00 Lunch
- 14:00 - 14:45 Cardiac Magnetic resonance T1 and ECV mapping (U. Reiter - AT)
- 14:45 - 15:30 Cardiac magnetic resonance flow imaging (G. Reiter - AT)
- 15:30 - 16:00 Cases
- 16:00 - 16:30 Coffee Break
- 16:30 - 17:15 Cardiac application of phase contrast in MRI by using 2D and 4D techniques
(E. Mousseaux - FR)
- 17:15 - 18:45 Case readings (participants)
- 20:00 Gala Dinner

PRELIMINARY PROGRAM

SUNDAY, 3. 2. 2019

- 8:30 - 9:15 Non-invasive assessment of the vascular tumors and malformations (G. Kirova - BG)
- 9:15 - 10:00 Acute Chest Pain (C. Loewe - AT)
- 10:00 - 10:30 Cases
- 10:30 - 11:00 Coffee Break
- 11:00 - 11:45 Acute aortic syndrome-workshop (G. Kirova)
- 11:45 - 12:30 Secrets of Success in Medicine (R. Rienmueller - AT)
- 12:30 - 13:00 Quiz
- 13:00 - 14:00 Lunch
